Kevin,  
Thank you for your time and explanation of the various zoning requirements for our properties.

My intentions are to investigate with Stewart Title company and the Hamilton County court house to see what steps and costs are associated with this process. My intentions are to have my one acre adjoined to either my primary 4 acres or my secondary one acre property. I am weighing both options from a real estate perspective. In having stated that I also want to make sure that little or no costs are incurred by myself in completing this transaction.

Regards,  
Jeff
